#### SilkRoad Recruiting and HireRight

HireRight is the exclusive premier partner of SilkRoad technology and is the only partner to offer a pre-integrated solution to SilkRoad customers. Through the integration with SilkRoad Recruiting, ordering a quality background check or drug test is just a few clicks away-and once the order is submitted, results begin appearing immediately without ever exiting the SilkRoad solution.

#### Combined Benefits of HireRight and SilkRoad Recruiting:

- The integration of the two solutions allows SilkRoad Recruiting to act as a single source for all candidate screening information
- Realize efficiency gains by collecting only required data, avoiding duplicate data entry, and reducing errors
- Access real-time status updates and track any changes by candidate without leaving the SilkRoad solution
- Keep sensitive data protected and secure

### Efficiency From Recruiting Through Hire

Finding the right candidate in today's market can be harder than ever. Sorting through and scoring candidates from a multitude of sources can be overwhelming. SilkRoad Recruiting will help you automate and brand your entire recruiting management process with ease, allowing you to hire better people while saving you money. SilkRoad Recruiting assists recruiters, hiring managers and human resource professionals with core recruiting activities that improve their organization's bottom line.

Once you have selected the right candidate, HireRight can help you complete the hiring process with fast, efficient, and flexible employment background checks ordered directly from SilkRoad Recruiting. This streamlined hiring solution enables process efficiency for recruiting and screening candidates. Once your background check order is submitted, results begin appearing immediately without ever leaving SilkRoad Recruiting. For those instances where you need to make a hiring decision prior to receiving the completed report, real-time updates are provided that allow you to instantly view results from each individual search (including package searches) as it is completed.
